

DF-520

AUTOMATIC SETTING FOLDER

Setting the Standard for Automatic Folding

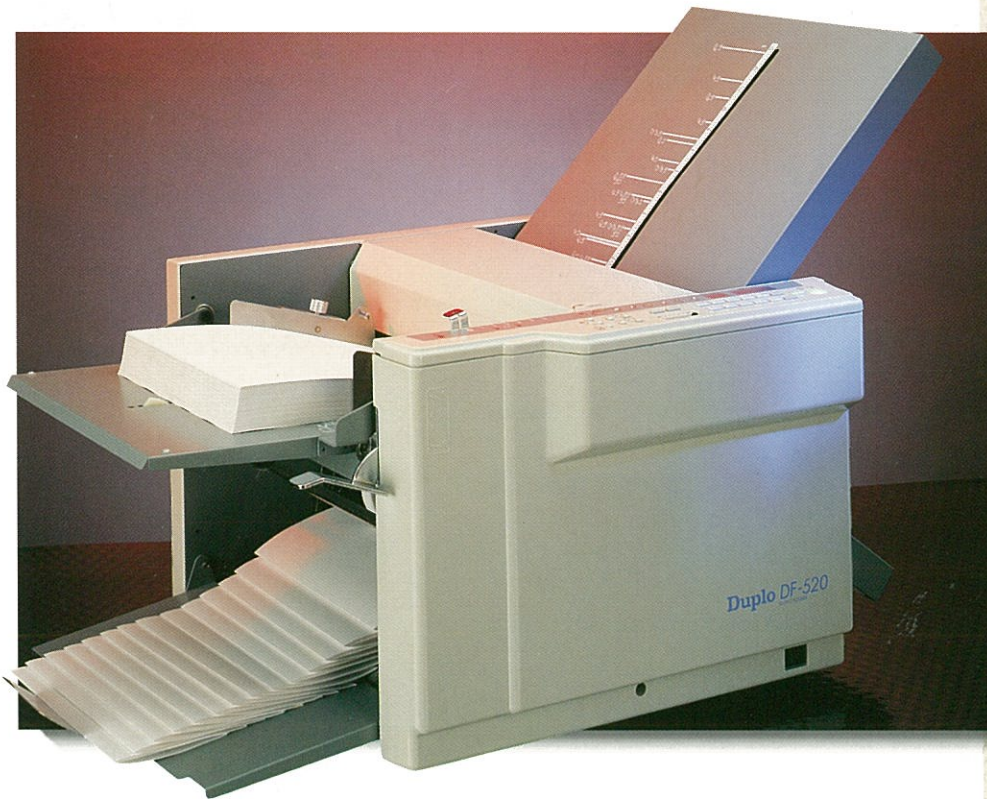

The new DF-520 Automatic Setting Folder from Duplo offers the ultimate in simplicity and convenience. With six popular folds pre-programmed, accurate folding for a variety of applications is accessed at the touch of a button. There are no manual adjustments necessary—the machine even recognizes paper size automatically.

For added versatility, two memory functions allow the user to pre-program specialized folds for future

use, and the fold plates can be manually adjusted for any one-time fold. Plus, the folder accepts paper in a wide range of popular sizes and weights.

Productivity is enhanced by a unique jam detector that automatically stops the folding process when something is blocked. A four-digit counter can be set to ascend or descend, and the control panel displays programming information and error messages at a glance.

Duplo's DF-520 makes smooth work of paper folding.

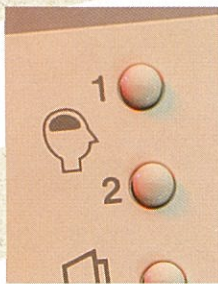

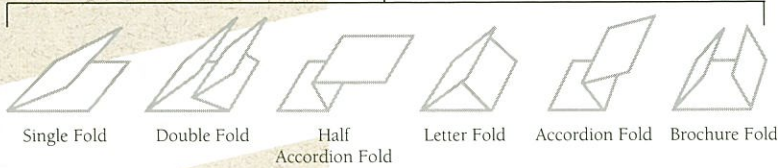

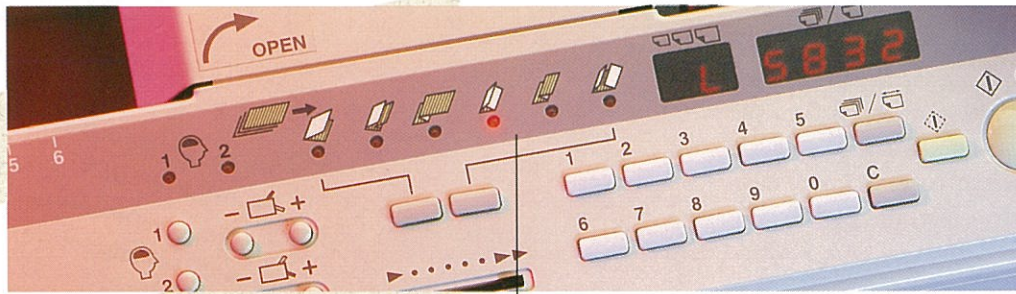

Duplo™

- Six pre-programmed folds for five paper sizes
- Two programmable memory settings for custom folds
- Special "cross folding" feature for right-angle fold
- No adjustment for paper thickness required for most paper stocks
- Simple "load and go" operation

DF-520

DF-520

AUTOMATIC SETTING FOLDER

A unique memory function allows two customized folds to be stored.

Specifications:

- Stack capacity: 500 sheets
- Variable speed: 45-150 sheets per minute
- Paper size: 5.0" x 7.2" (W x L) to 11.7" x 17" (W x L)
- Paper weight: 13# to 80#*
- Paper type: bond, NCR, some coated and card stocks*
- Automatic fold types: single fold, double fold, half accordion fold, letter fold, accordion fold, brochure fold and special right-angle fold
- Paper sizes for automatic paper settings: letter (8 1/2" x 11"), legal (8 1/2" x 14"), 11" x 17", 1/2-letter (5 1/2" x 8 1/2"), 1/2-legal (7" x 8 1/2")
- Power: 120V, 60 Hz
- Dimensions: 31" x 19 7/16" x 20 11/16" (L x W x H) stored 36 7/16" x 19 1/16" x 20 11/16" (L x W x H) in operation
- Weight: 73 lbs.
- Shipping weight: 84 lbs.

Special features:

- Automatic settings for six folds/five paper sizes
- Two programmable memory settings
- Electronic fold plate adjustment for custom folds
- Test button to ensure satisfactory paper folding
- Special "cross folding" feature for right-angle fold
- Jam detector automatically stops operation
- Ejection rollers automatically adjust position for paper size and fold type
- Easy-to-read control panel with at-a-glance programming and error information
- Ascending and descending counter
- Compact design and small footprint
- Microprocessor controlled

* Also depends on paper grain and type.
